

Review Form 1.7

Journal Name:	Asian Journal of Biotechnology and Genetic Engineering
Manuscript Number:	Ms_AJBGE_99527
Title of the Manuscript:	In vitro Antimicrobial Activities of Methanol Crude Leaf Extract of Psidium guajava L on Clinical Isolates of Multidrug Resistant Staphylococcus aureus
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	Yes The research on the in vitro antimicrobial activities of methanol crude leaf extract of Psidium guajava L on clinical isolates of multidrug-resistant Staphylococcus aureus highlights the potential use of natural products in the development of alternative therapies against antibiotic-resistant bacteria. These findings provide important insights into the search for new antimicrobial agents and can guide future studies on the therapeutic potential of Psidium guajava L in the treatment of bacterial infections. Yes Yes Yes Number of reference is sufficient, it is upto 2017 only. Plz added latest references	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
