

Review Form 1.7

Journal Name:	Asian Journal of Research in Botany
Manuscript Number:	Ms_AJRIB_99303
Title of the Manuscript:	Mycorrhizal Morphology and Symbiotic Fungi on the Root of <i>Pyrola renifolia</i>
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	<p>The importance of this manuscript is that it can determine the structure of Mycorrhizal Morphology, but does not explain the symbiotic relationship.</p> <p>The title is not appropriate, the Symbiotic Fungi referred to in this title is not clear. My suggestion is to focus on the formation of mycorrhizal structures and their formation involving fungi.</p> <p>Incomplete, there is no explanation of symbiotic fungi with the formation of mycorrhizal morphology on the roots of <i>Pyrola renifolia</i></p> <p>Not All Parts Are Compatible, especially what kind of symbiosis between Mycorrhiza, Fungi, and <i>Pyrola renifolia</i> roots</p> <p>Yes Right</p> <p>References do not adequately describe the latest, More than 80 percent below 2013</p>	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	No Comment	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
