

Editor's Comment:

Having regard to the results of the review process and taking into consideration my own evaluation, I recommend accepting manuscript number: 2023/CJAST/99428 "Effect of different levels of pruning intensity and foliar feeding of NAA on growth, yield and quality attributes of phalsa (*Grewia asiatica* L.) cv. Sharbati" for publication as an original research article.

I enclose the manuscript with some small revisions.
