PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	Yes No. There should be minor changed. Yes Yes. Yes Yes I think the title is more or less correct but it should be minor changed. Bio-fertilizer have always a mixture of specific microorganism. Compost, manure and organic fertilizer always are the decomposed material but there have a possibility to mixture of harmful and beneficial microorganisms. So, these are normally used as a biofertilizer till now.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	These should require minor corrections.	
Optional/General comments	This is very good topic and relevant to the present society of Agriculture as well as to increase the crop productivity. The choice of topic and work done are very much scientific and its recommendation is helpful in the view point of eco-friendly & environmental safety point of view.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
