	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. I hope the manuscript has important role for scientific community. It provides significant information on PPR disease.</p> <p>2. Yes I agree as it is.</p> <p>3. Making some correction on key words, unless otherwise it is good.</p> <p>4. Since it is relatively huge paper it important to minimize the content of the manuscript to make suitable for publication. I have commented on the paragraphs those need re- arrangements.</p> <p>5. Yes, the manuscript is scientifically correct. It is written based on available data's' on the PPR. As well as the Peste Des Petits Ruminants is disease of small ruminants which well-known disease in the science of veterinary medicine.</p> <p>6. The number of references in this Manuscript was sufficient. However, References are mandatory at the end of each paragraph. Additionally in this manuscript I have commented those parts need an additional reference. A few number of references are too old those should be revised.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>1. The manuscript needs some grammar corrections. So it is essential to re-edit the whole manuscript with appropriate words.</p>	
<p>Optional/General comments</p>	<p>1. The Author should prepare his manuscript based on the Microbiology Research Journal International author guideline to limit the size and to minimize unnecessary errors. As well as Making necessary correction on the given comments is important to faster the publication process and to get good result.</p>
