

Editor's Comment:

Author has partially revised the manuscript as per suggestions of Hon. Reviewers. Manuscript is recommended for publications in SARJNP after some minor revisions / corrections

1. Title and Keywords:

In manuscript title and keywords *Agaratum conyzoides* should be change to *Ageratum conyzoides*.

2. Materials and Methodology

Author is advised to recheck the percentage yield formula on p.2.

2.6. Standardization of test organisms

P.3, line 4 from top BaCl. H₂O should be change to BaCl₂. H₂O.

2.7. Bacterial and Fungal Species Confirmation

Proteus trirabilis should be change to *Proteus mirabilis*.

3. Discussion

P. 7 line 7 from the top Ogbulie et al. [16] should be change to Ogbulie et al. [17].

P.7 line 19 from the top Ogbulie et al. [16] should be change to Ogbulie et al. [17].

P 7, line 19 from the bottom Makinde and Igoli [24] should be change to Makinde et al. [24].

References:

Author should modify reference no. 19 as per guideline of SARJNP.

General:

1. As per advise of one of the Hon. Reviewer author should include photographs of results findings in the revised manuscript for the justification of work (in case available).

2. As per advise of one of the Hon. Reviewer, author should provide some parallel studies with recent references (2018 onwards is preferred). This can be included as last separate paragraph in the discussion portion of the revised manuscript.
