<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The selected topic is relevant for the educational community, but some changes should be improved in order to be suitable for an academic publication.</p> <p>Expressions such as "Teachers are the producers of great men and women who are successful in their lives" could leave to biases.</p> <p>Methodology section needs improvement regarding the tools that were applied and the total sample. A brief characterization of the institution where the research was performed is needed in order to facilitate readers comprehension of the topic.</p> <p>What is the relation between the selected theories and the research instrument?</p> <p>"This study used the descriptive survey method because it provides a sufficient and accurate interpretation of the data, sometimes with little or no help from statistical methods". This proposition has no correlation with the rest of the methodology section.</p> <p>It is also needed to improve argumentation skills in the text and nurture conclusion section.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Language should be improved to clarify technical and theoretical concepts.</p>	
<p>Optional/General comments</p>
