Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	1. Yes, the study provides some insight about substitutes that can be used for improving the scope of aquaculture in a natural way. In times of growing artificiality and adulteration the suggestion provided in the study could be really utilised for a good purpose. 2. I would suggest to omit words 'studies on' from the title. 3. Yes 4. Yes 5. Yes I would just like to present few queries 1. Can Insect meals completely replace the fish meal? 2. Has the use of Insect meal on full scale been approved by any nation or organization? Please mention. 3. Is there any disadvantage of insect meal over fish meal? If no, then why haven't we being doing it on full scale yet?	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments
