### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<p>The topic of the research is practical and contemporary            The whole document needs extensive proofreading and editing            The abstract is clear. It reflects the paper's content and intended objective.            Keywords are good            The introduction and background are adequate and are validated with relevant reported research. Proofreading is needed [see attached scanned Manuscript]. Add missing citation...            Also, You need to be consistent in either using American English with "z" or UK English with "s"... Earlier you used USA English so keep it so...            Methodology representation is adequate. The model is also adequate and clear. Proofreading...            The results are fine in their Table forms and adequate for the discussion to reach the paper's objective            The discussion is adequate and validated by the reported literature for comparison purposes.            The conclusion is adequate            Recommendations are adequate</p> <p>Review carefully the write-up of the references to match the Journal's requirements and make sure to be consistent and complete. Add the missing citations and remove any reported reference here that is not used in the text            Proofreading and editing are needed</p>	
<b>Optional/General</b> comments
