Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Socio-Economic Analysis of Fox-Nut Growers in Bihar Abstract: Fox-Nut (<i>Euryale ferox</i>) considers an aquatic crop. It is an economic plant, time-consuming and labor-intensive. Northern Bihar districts such as Madhubani, Katihar Darbhanga, and Purnia are ideal for fox-nut cultivation. The fishermen are from the lower socio-economic classes and mainly work in the fox-nut industry. The selected sample was 200 people from Darbhanga district. The results concluded that the marginal group of farmers represented highest number between 30-60 year. Introduction The fox-nut (<i>Euryale ferox</i>) is a crop of the Nymphaeaceae family and grows in stagnant water bodiessuch as land depressions, swamps, ponds, and ditches. Fox-nut is cultivated mainly in the states of Bihar and parts of North Eastern region. Bihar accounts for roughly 85 percent of India's fox-nut production. Northern Bihar districts such as Madhubani, Katihar Darbhanga, and Purnia are ideal forfox-nut cultivation..... Sample of the study Two blocks were selected, namely Manigachi and Darbhanga Sadar. From Manigachi block 9 villages were selected and from Darbhanga Sadar, 6 villages. A total of 200 respondents were selected from the study area in which all respondents were practicing the pond system of fox-nut cultivation. 3. RESULT AND DISCUSSION . Where is the previous studies.....</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 		
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p>(If yes, Kindly please write down the ethical issues here in details)</p>
