PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	Yes Yes, but may be modified as "A case report of Paratyphoid presenting with diarrhoea alone in a 5-year-old boy." Yes Yes Yes No	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	Spelling mistakes are either corrected by me or highlighted as yellow to be corrected by the author. The same sentences were repeated two to three times in different subheadings. Please avoid these or change the sentence structure so as to avoid monotony while reading. Avoid repeating the same points in different sections. Please add a few points to emphasize why the child was admitted to the hospital for IV antibiotics for 14 days as you could have been discharged on oral antibiotics once symptomatically better.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
