

### **Editor's Comment:**

I recommend to publish the article (Short communication) in the final revised form. The reasons are as follows:

- 1- One of reviewers gives comment such as "This short communication is a reasonable investigation about CME."
- 2- One of reviewers gives comment such as "manuscript is important to the scientific community because it addresses an interdisciplinary field"
- 3- All reviewers give comments such as "Accept after minor revision".

According to the comments, the authors have corrected the paper carefully.

Therefore, the paper has enough value for publication in the International Astronomy and Astrophysics Research Journal.
