<b>Compulsory</b> REVISION comments <b>1. Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)  <b>2. Is the title of the article suitable?</b> (If not please suggest an alternative title)  <b>3. Is the abstract of the article comprehensive?</b>  <b>4. Are subsections and structure of the manuscript appropriate?</b>  <b>5. Do you think the manuscript is scientifically correct?</b>  <b>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b> <b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b>	As water becoming a precious resource in the present scenario, this study is paramount and stresses using less water for higher productivity without changing the yield potential.  The title could be more specific.  Yes  Yes  Yes  Some more references still may be added with recent studies conducted in drip irrigation. The discussion portion is not adequate. The result may please be strengthened. I recommended one reference in the last portion of the reference page in the manuscript. Besides, some references be added.	
<b>Minor</b> REVISION comments <b>1. Is language/English quality of the article suitable for scholarly communications?</b>	The paper was grammatically checked. Please follow the comments. The language used in the paper can be improved.	
<b>Optional/General</b> comments
