There are some suggestions that must be addressed before publication.</p> <ol style="list-style-type: none"> 1. It is important to add one more table in Methodology to present the different treatments so that readers may easier to comprehend treatment differences. 2. Table 1, 2, & 3 should include one more column after the "Treatments column" for the explanation of the related treatment. 3. There are some abbreviations like RBD, DAS that must be accompanied by the complete words the first time they appear. 4. There are some notations that must be written with subscript and superscript, related to the chemical substances. 5. Latin names must be written in italic. 6. I think you need to enrich the Reference with more relevant and current publication. 7. Keywords must be written alphabetically. 8. Do you need to include "RBD" as one of the keywords? 9. You need to mention India to complete the place of the research.
