

Review Form 1.7

Journal Name:	Asian Journal of Advanced Research and Reports
Manuscript Number:	Ms_AJARR_107848
Title of the Manuscript:	Antibacterial ,antioxidant and Phytochemical studies of <i>Hibiscus rosa sinensis</i> leaf extract
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1- Title should be written in this way to fit the abstract "Phytochemical, Antibacterial and antioxidant studies of <i>Hibiscus rosa sinensis</i> leaf extract"</p> <p>2- In abstract Carbohydrates and proteins are not Secondary Metabolites. They are Plant Primary Metabolites that make up the bulk of the plant. "Secondary metabolites do not play a role in growth, development, and reproduction like primary metabolites do". The abstract was written in a manner similar to the abstract found in the paper (World Journal of Biology Pharmacy and Health Sciences, 2021, 07(03), 073–079), "Paraphrase the abstract"</p> <p>3- Objective of the study will be presenting in introduction part.</p> <p>4- Some Literature reviews are old.</p> <p>5- Statistical data analysis is lacking.</p> <p>6- Extraction Process section "was done as per method reported by Agrawal, RC [24]" (Methods of extraction and detection of carbohydrates, proteins and..... mentioned in Agrawal, RC [24] are not registered in his name, so the method of extraction and detection must be written in detail and mentioning the reference, or just mentioning the reference only for both carbohydrates and.. ..)</p> <p>7- Chemical's source and origin.</p> <p>8- Inhibition rate % = $\frac{Ab - As}{Ab} \times 100$.The Inhibition rate should be written as: DPPH scavenging activity (%) = $[(Ab - As) / Ab] \times 100$ Ab is As is</p> <p>9. Introduction and Discussion need more referencing and justification.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
