(If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>ok</p> <p>The abstract may be shorten to readable form</p> <p>Yes</p> <p>Yes</p> <p>No. More recent references may be included</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>No. In most of the places, authors did copy paste</p>	
<p>Optional/General comments</p>	<p>Introduction may be focused on problem based. Too long introduction on pulses and pea only. So modify introduction according to problem based. Explain with example why this study was undertaken. In so many places repetition of sentence is observed and not easily understandable. Author's point of view is not clear in some places.. Care and concentration may be given while writing an article.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
