

**Editor's Comment:**

1. Manuscript can be admittedly as it gives information about the water quality for different purposes especially agricultural purposes.
2. Abstracts are never written in a paragraph form and authors were not clearly described the research aim with performance.
3. English quality should be improved and authors have to remove the titles used in the heading from Key words like Water quality and 16-Tishreen Dam Lake.

**Editor's Details:**

Dr. Joji. V. S  
Associate Professor, School of Marine Sciences, Cochin University of Science and Technology, Kerala,  
India.
