This paper adds to the existing scholarship. To improve the technical approach, clarity, and scientific validity of this research article, I would suggest these matters and standpoints:</p> <p>1. The subsections and contents are well written. Although the summary of findings and a bit of recommendation are explained in the abstract, researchers must still incorporate research parts such as conclusion, recommendation, and related literature.</p> <p>2. The title must be improved slightly. It must reflect the aim of the study.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>		
<p><b>Optional/General</b> comments</p>
