<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? 2. Is the title of the article suitable? 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Yes, it will allow surgeons and other health professional to consider this as differential diagnosis</p> <p>2. It is good, but to make it more broad and to show how it affects, it might be better to rename as "Left sided....; a rare cause of Acute Abdomen"</p> <p>3. Yes 4. Yes 5. If it consider the above comments, yes 6. Some references needs to be updated(ref no 5,9</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes	
<p>General Comments</p>	<p>1) I appreciate if some spelling errors fixed(e.g. on the abstract part it says wish to say which) and some punctuation mark placement</p> <p>2) Better to consider other classification or differentials on the introduction part (types of hernia, and location of each i.e. elaborate line 23 &24)</p> <p>3) It would be better if the experiences of the surgeon is put</p> <p>4) Was informed and consent asked from the patient undergone hernioraphy or family members that her story will be posted publicly with out mentioning her name? Better to attach their consent in scanned form</p>
