<p><b>Optional/General</b> comments</p>	<p>The research title provided, "Challenges Facing Community Participation in Wards Secondary Schools Construction Projects at Kibaha Town Council, Tanzania," seems appropriate in addressing a specific issue related to community involvement in construction projects for secondary schools in Kibaha Town Council, Tanzania. However, to identify potential problems with the research, more information is needed, such as the research methodology, data sources, and the specific research objectives or questions being addressed. Can you provide more details or context about the research design and methodology? and the literature which is not much more enough to support this stud?</p>
