

Review Form 1.7

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_109164
Title of the Manuscript:	Exploring Sustainable Practices in Modern Agronomy and Their Environmental Impact- A Review
Type of the Article	Review Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Yes, the manuscript is important for the scientific community. The manuscript addresses the current issues of transitioning agronomy towards sustainability in the face of global climate change, making it highly relevant for the scientific community concerned with food production and environmental sustainability. Exploration of sustainable agronomy practices, their benefits, and associated challenges provides a valuable resource for researchers, policymakers, and practitioners seeking a deeper understanding of how to tackle climate change for global food security and agriculture.</p> <p>2. Title is not suitable. Alternate title: A Comprehensive Review of Sustainable Agronomic Practices, Benefits, Challenges, and Future Prospects to Mitigate Climate Change.</p> <p>3. Abstract needs to be improved.</p> <p>4. Overall structure is not appropriate and in subsections Sustainable Practices in Agronomy, Rationale for the Review, Historical Perspective there should be graphs and figures for highlighting the data and comparison. For subsection Environmental Impact of Sustainable Practices and Comparative Analysis there should also be figures and graphs for comparison and to make it more attractive.</p> <p>5. Yes, it is scientifically correct but needs improvement.</p> <p>6. Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language / English quality of the article suitable for scholarly communications?</p>	<p>2. Yes</p>	
<p>Optional / General comments</p>	<p>In general the article presents a compelling case for the transition to sustainable agronomy and highlights its importance. With some major enhancements, it can further engage and inform its audience while strengthening its argument with relevant data, figures, graphs and examples.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
