

Review Form 1.7

Journal Name:	Journal of Materials Science Research and Reviews
Manuscript Number:	Ms_JMSRR_108732
Title of the Manuscript:	Application Progress of Upconversion Luminescent Materials in Fluorescent Anti-counterfeiting Technology
Type of the Article	Minireview Article

PART 1: Review Comments

		Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	Yes to all comments	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>Reviewer's comment</p> <p>1) The article should describe the importance of nano particles in Counterfeiting Recently application of micron sized luminescent materials was the main cause for its detection as the phosphor particles could be easily scratched with finger nails from the counterfeit currency!!!</p> <p>2) The advantages of UC over normal down conversion phosphors in such security application should be highlighted in the introduction</p> <p>Real time pictures of some currencies with UC luminescent markers would be quite useful</p>
