Manuscript Number:	<b>Ms_IJMPCR_108957</b>
Title of the Manuscript:	<b>Saddle Shaped Thrombus at Subclavian- Vertebral Artery Junction</b>
Type of the Article	<b>Case study</b>

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p><b>Certainly, especially when dealing with thrombus in the upper limb</b></p> <p><b>Suggestion: "An effective approach to treatment of thrombus at Subclavian- Vertebral Artery Junction"</b></p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>I suggest supplementing with more current references, since the most recent one was from 2018. Additional references, for instance: Thrombolysis in acute limb exchemia Catherine C. Go MD, ... Rabih A. Chaer MD, MSc, in <a href="https://doi.org/10.1016/B978-0-323-55448-0.00031-0">Complications in Endovascular Surgery</a>, 2022. <a href="https://doi.org/10.1016/B978-0-323-55448-0.00031-0">https://doi.org/10.1016/B978-0-323-55448-0.00031-0</a></p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	Yes	
<p><b>Optional/General</b> comments</p>	<p>I missed knowing whether the etiology of the subclavian thrombus in this case was investigated, since there was no structural heart disease or suspicion of sustained or recurrent atrial fibrillation, the most common causes. Was there a haematological disease such as thrombophilia? smoker patient? I think these comments deserve to be added to the discussion.</p>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Are there ethical issues in this manuscript?</b></p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
