

Review Form 1.7

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_108951
Title of the Manuscript:	Prevalence of Obsessive-Compulsive disorder among medical students at Taibah University, Saudi Arabia
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Article has addressed rarely present mental illness which is living with hiding. The topic is most valuable for scientific community. There is a literature gap in globally prevalence of OCD. So, it is a better approach.</p> <p>Title should be more precise. Suggest to change it without country and university name because it can be enhance visibility of article.</p> <p>Better commencement</p> <p>Appropriated. But suggest to add objectives of the study under separate sub heading as purpose of the study Suggest to add data collection and data analysis under separate sections.</p> <ul style="list-style-type: none"> Scientifically prepared. Suggest to add total Cronbach's alpha value of used OCI-R scale in the methodology section. Is used OCI-R English version or your country language? Suggest to mention it in methodology section. Suggest to add version of SPSS that used for analysis <p>Suggest to add some discussion part in to the discussion section of relationship with age with the study results. Try to add some references</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Some sentences should be corrected as scholarly writing method. Should be remove words such as "we", "our study". Try to replace it using words such as researchers, current study or present study etc. Be aware avoid repetition.</p>	
<p>Optional/General comments</p>	<p>I believe readers of journal of pharmaceutical research international can definitely benefit from reading this manuscript as the study has the potential to offer original research that contributes to the anxiety disorder field. But also believe this would be stronger paper if the author can address the aforementioned concerns.</p>
