<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>There are a lot of studies related to this topic, and this topic is not a new one except in Nigeria. The author(s) should use more literature reviews on this topic.</p> <p>The title is suitable because it covers all aspects of this study.</p> <p>The abstract of the article is comprehensive</p> <p>The subsections and structure of the manuscript are appropriate.</p> <p>Because the author(s) use ARDL, there is another important factor that is not in this manuscript, i.e., Cusum-Q, to test the model stability. With Cusum-Q, the model cannot be used to analyze this study. The author(s) still have more literature reviews related to this study.</p> <p>The author(s) must provide Cusum-Q to make sure that the model is stable and the model can be used in this study.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Please upgrade the writing quality with better English.</p>	
<p>Optional/General comments</p>
