

Editor's Comment:

I would have a few observations before publication:

In RESULTS AND DISCUSSIONS, they should reformulate the text because all paragraphs use the same expressions in words, only the data are changed.

TO THE REFERENCES

It is necessary to review the writing of the references, keeping the same unitary line; sometimes only the abbreviation of the journal is mentioned, sometimes the whole name.

Otherwise, it seems that they respected the reviewers' requirements.

Editor's Details:

Prof. (Dr.) Ioana Grozea
King Michael I of Romania" in University of Life Sciences Timisoara, Romania.
