

Review Form 1.7

Journal Name:	Asian Journal of Agricultural Extension, Economics & Sociology
Manuscript Number:	Ms_AJAEES_109641
Title of the Manuscript:	KNOWLEDGE OF FARMERS ON INTEGRATED SOIL FERTILITY MANAGEMENT
Type of the Article	Original Research Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> Study on farmer knowledge assessment and perceptions is crucial as this acts as a baseline for the implementation of field research. Therefore, this manuscript can be important for scientific communities. The title is suitable but authors can rephrase it so that all the components studied can be compiled. The abstract looks little lengthy. However, all the components are inclusive. Please concise it to 300 words as per authors' guidelines. Please maintain at least 4 keywords. See authors' guideline. The introduction has background with all necessary components. Some citations in the introduction section are linked with the original article while others are not linked to the respective references. Please go thoroughly to the author's guidelines of journal for citations and references and make it uniform and make sure all the cited articles are in the reference lists. Please include the location (longitude and latitude of the study area, this will give precise information on further research) in methodology section. Also include the basis of categorization (How did you categorize age, farm size, and farming experience in different categories?) for characteristics of socio-economic characters of respondents in the methodology section. Please indicate tables in their respective description parts properly (see table 9 for example). Include footnote below table wherever applicable. Some are missing. See authors guideline. Table legends should be uniform with p-values. Conclusion seems like discussion. Please precise the conclusion and make grammar uniform. Manuscript has the required components so it is scientifically correct. Please do not miss to include DOI in the reference part if applicable. Make the font and style of reference uniform. Go through all references and citations, and match the citation with respective references (e.g., Uddin et al., (2019) is missing in reference). 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>The language is academically correct and English quality is also meeting the criteria of article. However. There are still some grammatical errors, unnecessary spacing, and typos errors which need to be minimized The article is suitable for scholarly communication but proofread with addressing above mentioned comments should be done before going for the publication.</p>	
<p>Optional/General comments</p>
