

## Review Form 1.7

Journal Name:	<a href="#">International Journal of Plant &amp; Soil Science</a>
Manuscript Number:	Ms_IJPSS_109780
Title of the Manuscript:	A Review of Organic Farming for Sustainable Agriculture in India
Type of the Article	Review Article

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. Given that the work is of an overview nature, it is very important to monitor the state of each country, continent and the world regarding the state of agricultural development, and especially regarding ecological or organic production. The importance of this work is characterized by the fact that it provides current information on scientific research work and the general state of the level of development of organic agriculture in India. Based on such information, the current state of agriculture can be viewed, and further development strategies can be formed based on the given results.</p> <p>2. The title is satisfactory, with the exception that I propose to possibly limit the time review of the research (for example, in the last 10 years)</p> <p>3. Advice: present concrete data on the development of organic agriculture (area, etc.).</p> <p>4. Yes</p> <p>5. Satisfying</p> <p>6. Most of the references are older than 10 years, the emphasis should be on the latest research, measures and methods, which are used and which have improved the comprehensive system in agriculture (fertility, environmental protection, production with a high yield percentage, new crop protection measures, etc. ).</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	I am not qualified to judge professional English.	
<p><b>Optional/General</b> comments</p>	The article has the required quality and appropriate structure. Attention should be paid to recent research, and in this connection, recent references and citations of the same.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Are there ethical issues in this manuscript?</b></p>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
