

Review Form 1.7

| | |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Journal Name: | Current Journal of Applied Science and Technology |
| Manuscript Number: | Ms_CJAST_108671 |
| Title of the Manuscript: | Study of Interrelationship Among Economically Important Production Traits and Season of Calving on Milk Production in Jersindh crosses |
| Type of the Article | Original Research Article |

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p> | <p>The manuscript is technically sound and important to the scientific community.</p> <p>I suggest a minor re-arrangement of the topic to: Study of Interrelationship Among Economically Important Production Traits and Season of Calving on Milk Production in Jersey and Red Sindhi crosses</p> <p>I recommend arranging the abstract in various subsections - Aim, Methodology, Result and Conclusion. As instructed in the Author's guideline</p> <p>Revise the subsections and structure of the manuscript. Please identify your objective at the end of introduction part and remove the</p> <p>Please add on the result about effect of 3 seasons that mentioned on material and methods (not put on the result part). For example see 1st line on conclusion part (Summer season had significant influence on milk yield in 2nd lactation). Your result reported only about lactation length, lactation period and dry period.</p> <p>Strong the conclusion part.</p> <p>Yes, the manuscript is scientifically correct but requires revisions.</p> <p>The references are not sufficient. However, more than 70% of the references are not recent.</p> <p>Make all necessary corrections given in attached manuscript file as track changes. Please</p> <p>Make all corrections carefully, so that more revision would be required in the manuscript. Please correct all listed references according to CJAST guideline. In addition to my above suggestion, you can download recent article of CJAST for reference format.</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | <p>Yes</p> | |
| <p>Optional/General comments</p> | | |
