

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_109604
Title of the Manuscript:	Genetic variability, heritability and genetic advance studies in diverse genotypes of tomato (Solanum lycopersicum L.)
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1.It's a very interesting subject, because it aims to select the best genetic characteristics which have an influence on all the parameters linked to the plant (tomato).</p> <p>2.Yes</p> <p>3.Yes, but it need to be restructured: include an introduction, objectif, materials and methods, results and conclusion.</p> <p>4.NO, i added the suggestion of subsections on the text</p> <p>5.Yes</p> <p>6.No, -Many references in the list of references which are not included in the text. -Paragraphs of more than three lines without references</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>	<p>-Explain on what basis you have chosen these 16 different tomato genotypes? -Which tomato variety(ies) were used in your study? -It's better to add the duration of the cyclical culture of the tomato, in order to add value to your work, as the cyclical gives an overview of the duration of the study in order to make the measurements for each parameter. -More about conclusion -All citation in the texte (author et al.,) do"al" in italic character -At the end of the introduction, introduce a short paragraph explaining the aim of your study</p>	

Review Form 1.7

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
