

**Review Form 1.7**

Journal Name:	<b>International Journal of Research and Reports in Hematology</b>
Manuscript Number:	<b>Ms_IJR2H_108759</b>
Title of the Manuscript:	<b>Anemia Among Reproductive Age Women in Bangladesh: Epidemiological Insights, Determinants, Clinical and Socio-Economic Implications</b>
Type of the Article	<b>Original Research Article</b>

**Review Form 1.7**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p><b>1. Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p><b>2. Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p><b>3. Is the abstract of the article comprehensive?</b></p> <p><b>4. Are subsections and structure of the manuscript appropriate?</b></p> <p><b>5. Do you think the manuscript is scientifically correct?</b></p> <p><b>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p>	<p>Yes this manuscript discusses an important topic of anemia</p> <p>Yes, the article is suitable.</p> <p>Yes, it is comprehensive.</p> <p>Yes, it is appropriate.</p> <p>The manuscript is scientifically correct.</p> <p>No, the references must be updated.</p> <p>The authors should write the statistics about anemia, I recommend this statement.</p> <p>Awareness about anemia and its consequences for the health and development of women and children has increased in the past few decades. In 2012, the 65th World Health Assembly approved an action plan and global targets for maternal, infant, and child nutrition, with a commitment to halve anemia prevalence in women of reproductive age by 2025, from 2011 levels (Stevens et al,2013; Shaaban et al., 2022).</p> <p>Stevens G, Finucane M, De-Regil L, et al. (2013). Global, regional, and national trends in hemoglobin concentration and prevalence of total and severe anaemia in children and pregnant and non-pregnant women for 1995-2011: a systematic analysis of population-representative data. Lancet Glob Health. 1: 16-25.</p> <p>Shaaban E S, Yamamah G A N, Bassuoni R A, Hussein L, Mohamed M S, Gad M. (2022) Iodine Deficiency and Anemia Levels of Urban and Rural Egyptian Children; Follow Up Study. Adv Pub Health Com Trop Med: APCTM-172.</p>	
<p><b>Minor</b> REVISION comments</p> <p><b>1. Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>The language is good.</p>	
<p><b>Optional/General</b> comments</p>
