	Reviewer's comment	
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Very good study for the conservation of the species and its production</p> <p>2. T The title is congruent with the work</p> <p>3. The summary is complete</p> <p>4. The structure is appropriate</p> <p>5.. If it is correct</p> <p>6. References are sufficient and recent, however in the management of it it is not by alphabetical index and numbers are indicated by appearance of the authors, we do not know what is the editorial policy on the Bibliography in which case it would have to be modified</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The English of the article is optimal for academic communications</p>	
<p>Optional/General comments</p>	<p>It is pointed out that the species is consumed, but it is not commented with figures how much is caught or if there is aquaculture since it is said to be endangered</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p>(If yes, Kindly please write down the ethical issues here in details)</p>
