

Review Form 1.7

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_107430
Title of the Manuscript:	Response of organic and inorganic sources of nitrogen application in wheat (<i>Triticum aestivum</i> L.) crop
Type of the Article	Original Research Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The author(s) have tried to come up with a good work, but there is always a room for improvement. There is need to review available research and develop problem statement with reference to the available literature.</p> <p>Introduction is too short need to review sufficient literature with respect to organic and inorganic sources of nitrogen along with objectives/aim of the following research Material ad methods chapter should be brief. It should include sources of organic and inorganic sources of nitrogen. Initial soil nutrient status of the experimental plot should be mentioned in the chapter.</p> <p>in the results chapter the parameters under study are only three. Need to add more number of growth and yield attributing and yield characteristics of the crop.</p> <p>A detailed discussion of the results along with proper literature citations is needed. Conclusion needs to be rewritten</p> <p>Yes, title of the research is suitable</p> <p>The abstract needs to be rewritten. The abstract should be a brief of 150-200 words that includes introduction/background, research objective, treatment details and key findings of the experiment.</p> <p>Subsections should be numbered properly.</p> <p>Needs improvement</p> <p>References are too less. Need to review relevant research articles. The following few research papers can be referred for writing the reviews as well as for improving the quality of research article.</p> <p>https://www.researchgate.net/publication/370100443 Effect of organic and inorganic fertilizers on growth and yield of wheat Triticum aestivum L and soil chemical properties in the Central Highlands of Ethiopia</p> <p>https://www.researchgate.net/publication/360560811 Effect of organic and inorganic source of nitrogen on yield of wheat Triticum aestivum L</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Needs improvement	
<p>Optional/General comments</p>		

Review Form 1.7

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
