If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. The manuscript is important since Hepatitis C infection has long term effects in morbidity and mortality.</p> <p>2. Title is suitable, need to explain what is Kindia, Is Kindia a town or a hospital?</p> <p>3. The abstract is not comprehensive. It is not orderly. It must start with background of the problem, the objectives of the study, results, and conclusion. It does not have the IMRAD format as required. It does not answer some attributes such as; why, where, when, who and how.</p> <p>4. The subsections are okay, they have the IMRAD format.</p> <p>5. Scientifically, the manuscript does not show the reasons why the urban community acquired HCV infection, what were the risk factors, what measures were being put in place to prevent HCV infection. What was the reason why the urban community was chosen, why the patients received from the Regional Hospital are more affected by this viral disease?</p> <p>6. The references must follow a specific format such APA, Harvard etc</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	The whole manuscript requires to be revised and aligned to include the above comments.
