If you have suggestion of additional references, please mention in the review form. <b>The references are sufficient but out 34 references, alone 4 are recent. There are many old references.</b></p> <p><b>Suggestions:</b></p> <ul style="list-style-type: none"> <li>-The authors should make a location map before all people are not know the location of Burkina Faso</li> <li>- About the charts, the authors should add the axis</li> <li>- The authors should put the results concentration expressed in ppb in the table. This is not concordance on the charts analysis where concentration is expressed in µg/kg and the values given on the comments.</li> <li>- The authors should read authors guidelies to correct the references presentation at the end.</li> </ul>	<p>aticle</p>
<p><b>Minor</b> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p><b>The English language is quite suitable for scholarly communications.</b></p>	
<p><u>Optional/General</u> comments</p>	<p><b>The paper work is important for scientific community and the authorities of Burkina Faso because it treats soil pollution in market gardening soils by heavy metal which constitutes a danger for safety food.</b></p>
