Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	Yes, it is important. Yes, it is suitable. It is lack of informative about aim of the research and conclusion. This manuscript does not state whether the treatment was single or combined Yes, they are. I think it is necessary to explain the effect (mechanism) of each microbe on chili seeding. It should be better to update the references (<10 years). There is 1 reference too old (>20 years). If statistical analysis was used in the research, it should better to note the statistical notation in the tables.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes, it is.	
Optional/General comments
