<p><b>Compulsory</b> REVISION comments</p> <ol style="list-style-type: none"> <li><b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</li> <li><b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</li> <li><b>Is the abstract of the article comprehensive?</b></li> <li><b>Are subsections and structure of the manuscript appropriate?</b></li> <li><b>Do you think the manuscript is scientifically correct?</b></li> <li><b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></li> </ol> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p>	<p>This article can be published in a journal of this high quality and value. Some points to improve the current format of the article will be mentioned below:</p> <p>The abstract of the article does not tell the full content of the article at all. The abstract should be in such a way that the reader can get the important and key points of the content of the article by reading it. The abstract should be more informative by giving real results rather than elastic sentences. Important and main contents should be given. Support the results with some quantitative data.</p> <p>In the last paragraph of the introduction, you tried to explain the purpose of the article, but you should also focus on its innovative aspects. Prove that the innovation of the research is so high that its data can be published in the current prestigious journal.</p> <p>All devices used along with the name of the device manufacturing company should be listed in the "materials and methods" section.</p> <p>All units are given in the SI system.</p> <p>The standard deviation and significance letters of the data should be mentioned in all figures and tables.</p> <p>Conclusion: what is the future of your findings? Conclusion is not insightful, what are suggestions?</p>	
<p><b>Minor</b> REVISION comments</p> <ol style="list-style-type: none"> <li><b>Is language/English quality of the article suitable for scholarly communications?</b></li> </ol>	Major editing of English language and style required.	
<b>Optional/General</b> comments
