

Review Form 1.7

Journal Name:	Asian Journal of Biotechnology and Bioresource Technology
Manuscript Number:	Ms_AJB2T_107926
Title of the Manuscript:	Isolation and Identification of Air Microflora in Clifford University Medical Center, Ihie Campus, Owerri, Abia State, Nigeria.
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>1</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The Manuscript fits the Journal's scope, microbial and environmental biotechnology. The Manuscript fits the Clinical Practice Article and discusses the microbiological air quality of the Clifford University Medical Center (Nigeria) and the risk of nosocomial infections.</p> <p>The title is suitable, specific, and informative.</p> <p>The Abstract is a continuous paragraph with 239 words enlightening the aim, methodology and results of the research. It is accurate and concise.</p> <p>The Manuscript is structured with titles and subtitles. Closing part is named "CONCLUSION AND RECOMMENDATION" with Conclusion but no Recommendation. Please add some. Also, more definite answer should be given if microflora affects the infection rate in the hospital environment.</p> <p>2.2.1 Collection of Sample: please add temperature of transportation and storage before analysis.</p> <p>2.2.2 and 2.2.3 - methods should be mentioned with references (https://journalajb2t.com/index.php/AJB2T/about/submissions) . Please add them</p> <p>The Manuscript sounds scientifically</p> <p>The references are sufficient. Please check the information on the cited references. Ex., the reference [10] Hambraeus A. Aerobiology in the operating room- a review. Journal of Hospital Infection. 2018; 11:68 – 76. There is a paper Hambraeus A. Aerobiology in the operating room--a review. J Hosp Infect. 1988 Feb;11 Suppl A:68-76. doi: 10.1016/0195-6701(88)90169-7. PMID: 2896749. Please note that the year of the publication was 1988, not 2018 as it is in this Manuscript. Same with No 11. In this manuscript - Emmerson A.M. The Impact of Surveys on Hospital Infection. Journal of Hospital Infection. 2005; 30: 421 – 440. In the PubMed - Emmerson AM. The impact of surveys on hospital infection. J Hosp Infect. 1995 Jun;30 Suppl:421-40. doi: 10.1016/0195-6701(95)90047-0. PMID: 7560981.</p> <p>Dear Authors. You have discussed the results without statistics used. Please confirm that no statistics is applicable to this research.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The English is suitable I suppose, but I am not qualified enough to assess the quality of English in this Manuscript</p>	
<p>Optional/General comments</p>
