

Review Form 1.7

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_108610
Title of the Manuscript:	Carbon Sequestration Potential of Trees in Urban Vegetation Islands: A Case Study
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes, important</p> <p>May be adjusted to diversity and carbon sequestration of trees..... Because that research result show plant diversity...</p> <p>Abstract... The total biomass accumulated is 430027.5 kg and the total carbon content of the campus trees is equal to 206733 kg. may be not correct</p> <p>Yes Yes,</p> <p>but it is not clear from the research results that each tree can store carbon per tree per year. Please tell me how to calculate this. individual tree on the campus is 840.92 kg/year, or 0.84 tons/year.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>y</p>	
<p>Optional/General comments</p>	<p>The objective of the work may also include the study of plant biodiversity. Because the research results have been shown,</p> <p>Please check Table 1 between Carbon Equivalent and Carbon Equivalent (Tons), and there are incorrect changes such as No.1, 27, 30, 34, 37</p> <p>Hadoti region of Rajasthan is in Loas PDR, please give Country</p> <p>Also, importance map, importance tree</p>
