

**Editor's Comment:**

Following the analysis of the paper and the recommendations of the reviewers, the paper cannot be accepted for publication.

The reviewers recommended that all citations in the text of the paper should be found in the references. The authors did not fix these issues and did not respond to the reviewers' requests.

Under these conditions, I do not recommend accepting the paper for publication.

**Editor's Details:**

Dr. Rusu Teodor  
Professor, University of Agricultural Sciences and Veterinary Medicine, Cluj-Napoca, Romania.
