

Review Form 1.7

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_106192
Title of the Manuscript:	Quantifying the Trend of Climatic Variables in the Jessore Region of Bangladesh
Type of the Article	Climate Change

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes, This manuscript is important for scientific community</p> <p>Insert history in title, "Quantifying the Trend of historical Climatic Variables in the Jessore Region of Bangladesh"</p> <p>Yes, but needs rewording, revise second and penultimate sentences.</p> <p>Yes, but with some adjustments.</p> <p>Yes</p> <p>For references, only one is recent. At least 5 references from the last 10 years are required.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes	
<p>Optional/General comments</p>	<ul style="list-style-type: none"> - Reduce introduction (it's too long) - Series size could go to 2020 at least - Place subheadings 2.1, 2.2, 2.3 and 2.4 under a main heading 2.1 entitled study area, with a map. - Place subheadings 2.5, 2.6 and 2.7 under a heading 2.2 entitled Method - In 3.1, place the trend curves on the various graphs. Announce the figures and comment on them in clear text. - In 3.2, 3.3 and 3.4, mark the various points of change in the curve and comment on the results. - On each graph, enter the trend equation and indicate the rate of change per year or per decade. - Your aim is to quantify trends, so it would be interesting to evaluate changes between different phases (breakpoints). - More comments for 2.5, 2.6 and 2.7 using a single title for all three sections. - In the conclusion, is it 1985 or 1983?
