<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. If the scientific addition to the research is clearly stated, the article can be of scientific importance.</p> <p>2. I suggest making the following amendment to the title of the article (Architectural design of building structures using BIM techniques / the design of a sales office as a case study)</p> <p>3. The abstract is not comprehensive, and the researcher's findings must be included in the abstract.</p> <p>4. The sub-sections are correct, but a methodology must be added.</p> <p>5. After adding the suggested amendments, the article will be scientifically correct.</p> <p>6. Scientific references are insufficient.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>English language is good</p>	
<p>Optional/General comments</p>	<p>The title of the article is incorrect, so a new title has been suggested. Must be added to the research methodology that shows the new scientific additions made by the researcher and the steps of the study. Detailed drawings using BIM techniques must be added to the article of the structure being studied (the sales building), clearly showing what the researcher wants to point out. The drawings must be clearly indicated in the article.</p>
