

Editor's Comment:

Manuscript (2023/ARRB/106206) entitled,

"Ecology and Distribution Pattern of Insectivorous plant in Sanjay Dubri Tiger Reserve Sidhi [Madhya Pradesh]"

I have gone through the manuscript and found that the authors have done good jobs during revisions as well as improved the manuscript based on the comments/suggestions by the expert reviewers. However, there are still some places where the wordings and sentences are not grammatically correct, which are required to be corrected and overall English needs to be improved. In addition, the whole text including the figures, citations and references should need to be made clear, formatted and arranged according to the prescribed format of the journal. Moreover, the title of the manuscript will be revised as "Ecology and Distribution Patterns of Insectivorous plants in Sanjay Dubri Tiger Reserve in Sidhi, Madhya Pradesh, India".
