<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. The manuscript is relevant to the current academic debates and important for scientific community.</p> <p>2. The title is well captured</p> <p>3. The following should be included in the abstract: Sample, instrument/s for data collection and method/s of data analysis.</p> <p>4. The structure of the manuscript is fair.</p> <p>5. The scientific correctness of this manuscript is average.</p> <p>6. There are many cases in which the researcher does not acknowledge the sources of information. However, literature is relevant.</p> <p>7. Additional suggestions:  1. The introduction is relevant but it is too long. Let it be 4 pages at least. Summarise it. For more information, read the comments which are stated in the manuscript.  2. Research questions: Use bullets to list the research questions not i and ii. I suggest that the first research question be written as follows: What are the teachers' attitudes towards the effectiveness of quality assurance in the public primary schools Tanzania?  3. Research methodology needs to be strengthened. The researcher must learn to establish the difference between qualitative and quantitative studies.  4. Data analysis: The researcher must use some of the following tools to present data: frequency tables, bar charts, pie charts and graphs. The use of such tools enhances efficiency in the interpretation of data and reporting of the research results.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>Language suitability for scholarly communications is fair</p>	
<p><b>Optional/General</b> comments</p>
