EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>I suggest a revised submission that I would like to go through. While revising, please consider the following points and DO USE TRACK CHANGE so that the changes made are easily identified.</p> <p>1. Please improve the overall writing. Currently, the language is poor in many places.</p> <p>2. The methodology section appears to be very briefly described. Consider using COREQ or SRQR to report this section. Also, the authors need justification for selecting purposive sampling.</p> <p>3. Please follow proper referencing format throughout the list.</p>	<p>Noted with Thanks</p> <p>I am determined to improve. I really would appreciate if there are some specific places pointed out. Thank you.</p> <p>Done. Thank you</p> <p>Noted with Thanks> This I have tried to follow. I would appreciate to be assisted where necessary. Thank you</p>
