There are some suggestions before publication:</p> <ol style="list-style-type: none"> 1. The word India must be included in the title and when describing the place of this research. 2. It is better to include one more table to list all treatment details to increase their readability. 3. RDF must be accompanied by its complete words the first time it appears. 4. Alfisols must be shortly described in Introduction and must be stated whether the soil for the experiment was classed as Alfisols. 5. Unit must be written correctly, for example kg ha⁻¹ instead of kg ha-1 (See Figures 2, 3, and 4) 6. References must be enriched with several more relevant dan current publications. 7. There are several mistakes related to word spacing, word spelling, and Subject – Predicate agreement.
