| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p> | <p>1. Lead is a metal that has emerged as a significant, foundational material for a range of tools. However, it also may create a variety of environmental and human health problems. This research provides insight for the chemical fate and transport of lead.</p> <p>2. The title of the article is fine.</p> <p>3. The abstract is acceptable.</p> <p>4. The subsections are appropriate.</p> <p>5. The data and interpretation are solid; however, I would note that the paper could be elevated by accounting for uncertainty in the figures.</p> <p>6. The references are diverse and support the claims in the paper.</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | <p>The English is professionally appropriate enough to move forward with publication, but see the document for suggestions.</p> | |
| <p>Optional/General comments</p> | | |
