

Review Form 1.7

Journal Name:	Asian Journal of Research in Computer Science
Manuscript Number:	Ms_AJRCOS_105529
Title of the Manuscript:	MONITORING AND CONTROL SYSTEM IN PRECISION AGRICULTURE USING SENSORS NETWORK
Type of the Article	ORIGINAL RESEARCH ARTICLE

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes, In this study, monitoring and control systems for hydroponic precision agriculture are developed using IoT and fuzzy logic. Fuzzy logic is utilized to control how much food and water the plants receive, and IoT is used to make it feasible to periodically assess the nutritional and water needs of plants.</p> <p>Need to revised.</p> <p>Need to revised.</p> <p>Need to revised.</p> <p>Need to include recent important article.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>Need to revised.</p>	
<p>Optional/General comments</p>	<ol style="list-style-type: none"> 1. The manuscript contains several technical errors that need to be addressed before publication. For example, the methodology section is unclear and needs to be revised to provide more detail on the study design and data collection methods. 2. The manuscript does not adhere to the journal's formatting and style guidelines. Please revise the manuscript to ensure that it meets the journal's requirements for font size, margins, and citation style. 3. The manuscript contains several grammatical and language errors that need to be corrected before publication. Please proofread the manuscript carefully and revise any sections that contain errors or awkward phrasing. 4. The manuscript is well-organized overall, but the introduction and conclusion sections need to be revised for clarity and focus. 5. The figures and tables are generally clear and easy to read, but some of the figures need to be revised or re-formatted to improve their clarity. 6. The references cited in the manuscript are accurate and up-to-date, but some of the citations are missing important information such as page numbers or publication dates. 7. The manuscript makes a significant contribution to the field, but there are areas where the research could be further developed or expanded. For example, the discussion section could be revised to provide more detailed analysis of the study's findings. 8. The manuscript does not raise any ethical or legal issues that need to be addressed before publication. 9. The authors have disclosed all conflicts of interest in the manuscript. 10. The manuscript is generally well-written and well-researched, but there are a few editorial issues that need to be addressed before publication, such as formatting inconsistencies or unclear language in some sections.
