

Editor's Comment:

I have made my editorial decision about the manuscript "Influence of diet and dietary crude protein content on the reproductive performance of the snail *Archachatina marginata* (Swainson, 1821)". All suggestions and corrections addressed by the reviewers have been ensured and corrected by the author as per the materials attached.

So, I suggest that the manuscript may be published in the *Journal of Agriculture and Ecology Research International* at the earliest.
