

Review Form 1.7

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_106327
Title of the Manuscript:	Anti-inflammatory and antinociceptive properties of Terminalia avicennioides Guill. & Perr. stem bark ethanol extract is distinct from the antioxidant effect mediated by its phenolic-rich fractions
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	Yes, The present study demonstrated the effectiveness of T. avicennioides in different anti-inflammatory and antinociceptive tests. One major finding was that although extract separation may afford fractions with higher concentration of phenolics, this may impact its antinociceptive and anti-inflammatory effect yes yes yes yes no , references require to rewrite in same style, the percent of recentness is 14.7 % is poor , need update	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments	All comments are refer inside article	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
